Total Liabilities & Stockholders' Equity	401,139	383,090

Interim Quarter ended June 30, 2013 Compared with quarter ended June 30, 2012

RESULTS OF OPERATION

Revenue and Earnings per share

- Since the company ceased to have control over Express Savings Bank, Inc. and still banking on new petroleum and gas service contracts, no revenues were recorded for the second quarters of 2013 and 2012.
- The earnings per share comparison for the second quarters of 2013 and 2012 are as follows: (P0.00034) and (P0.00050) respectively.

Cost and Expenses

- Cost and expenses consisted primarily of professional fees, taxes and licenses, PSE annual listing maintenance fee, and office rental.
- Cost and expenses recorded for the 2nd quarter of 2013 and 2012 were P631,774 and P928,392 respectively. Decrease of P296,618 or 31.95% is net effect of the following:
 - Bidding fee amounting to P300,000 paid to the Department of Energy (DOE) for the PECR 4 project applied by the company last April 2012.
 - Office supplies expense of P8,103 and audit fee of P97,060 paid for the 2nd quarter of 2012.
 - Directors' fee of P44,444, courier expense of P42,715 and meals and entertainment expense of P21,250 paid in connection with Annual Stockholders' Meeting held last June 24, 2013.

FINANCIAL CONDITION

Current Assets

- Current assets consist of Cash in Bank and Input Tax. Cash in Bank carries interest at respective bank deposit rate. On July 19, 2012, the Board of Directors approved the opening of a deposit account with Banco De Oro to facilitate the collection and disbursement processes of the company. Input tax is stated at face value less provision for impairment, if any. Allowance for unrecoverable input tax, if any, is maintained by the Company at a level considered adequate to provide potential uncollectible portion of the claims. The Company, on a continuing basis, makes a review of the status of the claims designed to identify those that may require provision for impairment losses. Balance of cash in bank as of June 30, 2013 and 2012 were P196,127 and P38,213, respectively. Input tax as of June 30, 2013 and 2012, net of allowance for impairment, amounted to P536,284 and P328,065, respectively.

Available-For-Sale Financial Assets

Available-for-sale financial assets as at June 30 consist of:

	June 30, 2013		June 30, 2012	
Unquoted shares				
Cost	P	73,211,573	P	73,211,573
Impairment loss	(9,320,935)	(9,320,935)
		63,890,638		63,890,638
Quoted shares				
Cost		7,529,480		7,529,480
Net unrealized fair value gain		25,098,279		4,166,317
		32,627,759		11,695,797
	P	96,518,397	P	75,586,435

Forum Exploration, Inc. (FEI)

Investment in unquoted shares of stock represents 33.33% ownership of the Company in Forum Exploration, Inc. (FEI) as at June 30, 2013. Previously 100% owned, the Company sold its 66.67% ownership, or 125 million shares to Tracer Petroleum Corporation (TPC), now Forum Energy, Inc. in 2003. Subsequent to sale, the Company did not have any material transaction with FEI, which manifests that it has ceased to have significant influence on the financial and operating policy decisions of FEI. Thus, it is now classified as available-for-sale financial assets in compliance with PAS 39. Investment cost and post-acquisition charges are used to determine the carrying amount of this investment as of reclassification date. The fair value of available-for-sale financial assets approximates its carrying value.

The investment in FEI is stated at cost since there is no quoted price in an active market.

Express Savings Bank, Inc. (ESBI)

ESBI was 56% owned by the Parent Company as of December 31, 2007. During 2007, the Parent Company did not avail of its pre-emptive right to subscribe for additional shares in ESBI's increase in capitalization. This diluted the Parent Company's interest in ESBI. In 2008, the Parent Company eventually ceased to have control in ESBI.

On June 3, 2009, the Parent Company executed a deed of absolute sale for its 127,415 shares in ESBI for P179.63 per share or equivalent to P22,887,556. The carrying amount of 289,806 shares in ESBI as of December 31, 2008 amounted to P122,592,758 or P423.02 per share. The difference between selling price and cost per share multiply by the number of ESBI shares as of December 31, 2008 was recognized as impairment loss in 2008.

The investment had been recorded for P22,887,556, in the 2008 audited financial statements but the said amount represent only 127,415 shares out of 289,806 shares or 44%. An impairment loss of P99,705,202 was recorded which resulted to understatement of available-for-sale financial assets and overstatement of impairment loss in 2008 amounting to P29,170,296.

The fair value of ESBI investment as of December 31, 2009 was based on the actual partial sale that occurred on July 13, 2010 in which 46,602 shares were sold for P4,660,200 at P100/share.

On August 12, 2010, the Parent Company executed a deed of absolute sale for its 115,789 shares in ESBI at P100 per share or equivalent to P11,578,900 which is equal to the carrying value as of December 31, 2009 of P11,578,900. The Parent Company reclassified the corresponding unrealized fair value loss amounting to P9,220,278 from unrealized fair value loss on available-for-sale financial assets in equity to the statement of comprehensive income.

On July 8, 2011, the Monetary Board (MB) of the Bangko Sentral ng Pilipinas placed Express Savings Bank, Inc. under receivership of the Philippine Deposit Insurance Corporation (PDIC) by virtue of MB resolution No. 987.B. As receiver, PDIC took over the bank on July 8, 2011. In 2011, the management, upon recommendation of the Audit Committee, has written off its remaining investment in ESBI. The Company reclassified the corresponding unrealized fair value loss amounting to P3,710,917 from unrealized fair value loss on available-for-sale financial assets in equity to the statement of comprehensive income.

Philippine Estates Corporation (PHES)

Investment in quoted shares of stock represents investment in Philippines Estates Corporation (PHES), a publicly listed Company. The Company owns 50,196,553 common shares and constitutes 3% ownership in PHES.

The fair value of PHES investment as of June 30, 2013 has been determined directly by reference to published prices in the active market. Consequently, an unrealized fair value gain was recognized amounting to P25,098,279 and P4,166,317 for the period ended June 30, 2013 and 2012, respectively. "Unrealized fair value gain on AFS" account is presented under Statement of Comprehensive Income and shown separately in Equity.

Investments in Subsidiary

The Company owns 60% of the stockholdings of Forum Coal Cebu Holdings, Inc. (FCCHI), a domestic corporation registered with the SEC on February 3, 2006. Its primary purpose is to acquire, hold and dispose of bonds, debentures, promissory notes, shares of capital and the likes, without engaging as a dealer or broker of securities. Its registered office is located at 14th Floor Pearlbank Center, 146 Valero Street, Salcedo Village, Makati City.

On November 30, 2009, FCCHI was formally dissolved pursuant to a resolution duly adopted by the FCCHI's Board of Directors and Stockholders representing at least two-thirds (2/3) of the outstanding capital stock dated October 9, 2009. Such dissolution was subsequently approved by the SEC on July 6, 2012.

In a special meeting held last November 21, 2011, the Company has decided to provide full valuation allowance on its investment in a subsidiary. Consequently, the Company recognized impairment loss of P3,888,000 in 2011.

On July 19, 2012, the Board of Directors approved the write-off of the investments in a subsidiary. As per Corporation Code of the Philippines, upon approval by the SEC of the amended Articles of Incorporation to shorten the corporate term, the corporation shall be deemed dissolved without any further proceedings. **Hence, starting 2012, the Company did not present consolidated financial statements.**

Related Party Transaction Account

The Company, in the normal course of business, has transactions with related parties. Such transactions are unsecured, non-interest bearing and with no definite terms of repayment period.

Relationships, Transactions and Account Balances

Related Parties	Relationship	Outstanding Balance	
		June 30, 2013	June 30, 2012
The Wellex Group, Inc.	Common key management	P 166,642,950	P 169,876,014
Forum Exploration, Inc.	Common key management	137,188,958	137,188,958
Forum Exploration, Ltd.	Common key management	(3,415,733)	(3,642,609)
Wellex Industries, Inc.	Common key management	(666)	(1,612)

Advances to TWGI

Transactions between the Company and TWGI primarily consist of interest bearing advances granted to finance TWGI's working capital requirements.

On December 15, 2012, to settle its outstanding obligations to the Company, TWGI issued a one-year promissory note to the Company amounting to P330,495,385 without interest.

In addition, the Company subleases an office space from TWGI starting April 2012. The lease is for a period of two (2) years but renewable thereafter upon mutual agreement of both parties. Total rental and utilities expense charged to operations amounted to P55,500 for both periods ended June 30, 2013 and June 30, 2012, respectively.

Also in April 2012, the Company has entered into a consultancy agreement with TWGI, whereby the latter will provide corporate planning and financial services on its various corporate functions and undertakings. Total management fee charged to operations amounted to P120,000 and nil, for the period ended June 30, 2013 and June 30, 2012, respectively.

Total collections of advances from TWGI amounted to P1,598,725, P4,241,640 and P5,762,946 in the 2nd quarter of 2013, Y2012 and Y2011, respectively.

Advances to FEI

Advances to FEI pertain to the carrying value of exploration net assets transferred by the Company. No transaction in the account balance was recognized for the period ended June 30, 2013 and June 30, 2012.

Advances from Forum (FEI), Ltd.

The Company received cash advances from Forum (FEI), Ltd. to finance its acquisition of 60% stockholdings of Forum Coal Cebu Holdings, Inc. (FCCHI). Outstanding balance as at June 30, 2013 and June 30, 2012 amounted to P3,415,733 and P3,642,609, respectively.

Advances from Wellex Industries, Inc. (WIN)

The Company received cash advances from Wellex Industries, Inc. for payment of expenses. Outstanding balance as at June 30, 2013 and June 30, 2012 amounted to P666 and P1,162, respectively.

Remuneration to key management personnel

The Company did not provide remuneration to key management personnel for the period ended June 30, 2013 and June 30, 2012. The administrative function of the Company is performed by its related party, TWGI.

Current liabilities

- This is primarily consists of Trade and Other Payable. Outstanding balance as at June 30, 2013 and June 30, 2012 amounted to P38,326 and P1,697,074, respectively. This includes payable for retainer fees of legal counsel and stock transfer agent of the Company and withholding taxes payable.

Non - Current liability

- This is primarily consists of Deferred Tax Liability with outstanding balance of P30,432 for the quarter ended June 30, 2013 and June 30, 2012.

The Top five (5) Key Performance Indicators are:

1. Advances to Related Parties – currently, TWGI is funding all operational expenses of the Company.
2. Current Ratios – Current Assets against the Current Liabilities of the Company. It measures the company's ability to pay short-term obligations. Current Ratio for the 2nd Quarter of 2013 is 1970.03% and 23.87% for the 2nd Quarter of 2012.
3. Cash Ratio – the most conservative liquidity ratio. It excludes all current assets except the most liquid: cash and cash equivalents. It measures the amount of cash and cash equivalents there are in the current assets to cover current liabilities. The cash ratio of the company for the 2nd Quarter of Y2013 is 511.73% and 2.25% for 2nd Quarter of 2012.

4. Debt ratio - It is one of the financial leverage ratios which measure the extent to which the firm is using long term debt. Formula is total debt divided by total assets. Debt ratio for the 2nd Quarter of 2013 is 0.87% and 1.40% for 2nd Quarter of 2012.
5. Debt-to-equity ratio - The formula is total debt divided by total equity. It indicates what proportion of equity and debt that the company is using to finance its assets. The debt to equity ratio for the 2nd Quarter of 2013 is 0.88% and 1.42% for the 2nd Quarter of 2012.

(i) Summary of Material Trends, Events and Uncertainties

Forum Pacific, Incorporated

The shares of FPI are listed and traded in Philippine Stock Exchange (PSE). The company was registered to engage in investing, purchasing and acquiring assets of any kind and description with the secondary purpose of engaging in the exploration, development and production of petroleum and related products, as well as other mineral and chemical substances. It is presently a holding company and owning shares of stocks of an exploration company.

On July 13, 2005, the PSE suspended the trading of its shares for failure to comply with certain reporting requirements. Also on July 25, 2006, the Securities and Exchange Commission suspended the registration of the Company's securities for period of 60 days for non-filing/late filing of financial reports for 2004 and 2005.

On January 24, 2008, SEC resolved to deny the Company's request that it be allowed to pay a monetary fine in lieu of revocation of the registration of its securities. On March 27, 2008, SEC revoked the Company's registration of securities and permit to sell due to late filing of its annual financial report and other reportorial requirements. On May 5, 2008, the Company filed a petition to lift SEC's order of revocation of the registration of its securities and the permit to sell securities citing its compliance with SEC's directives to pay the assessed penalties in addition to said revocation and the fact that it has no pending case for violation of the provisions of the Securities Regulations Code and its Implementing Rules and Regulations.

On July 31, 2008, the SEC resolved to lift and set aside the revocation of the registration of the Company's securities and the permit to sell its securities.

In 2009, the Company again received an order of revocation of the registration and permit to sell the Company's securities due to late filing of the Company's 2008 audited financial statements.

On August 31, 2010, the Company received an order of revocation of the registration and the permit to sell the Company's securities due to late filing of the Company's 2009 annual reports. On September 8, 2010, the Company requested for an extension of time until September 30, 2010 for the filing of the Company's 2009 audited financial statements which was granted by SEC in a letter dated September 13, 2010. On October 5, 2010, the Company again requested the SEC an additional thirty (30) working days within which to comply with the letter from the SEC dated August 31, 2010. However, on October 7, 2010, the Company's request was denied and the SEC provided a non-extendible period of three (3) days from receipt of the letter within which to submit the 2009 annual reports.

Subsequently on February 14, 2011, the Company paid fines and penalties in the amount of P2.77 million in lieu of the Company's revocation of Registration of securities and Permit to sell securities.

On May 13, 2011, the Company again paid SEC in the amount of P760,500 as payment for its outstanding fines and penalties. On May 17, 2011, PSE lifted the Company's revocation of Registration of Securities and Permit to sell securities.

Business Plans

To address the foregoing matters that may raise doubt on the Company's ability to continue as a going concern, management is banking on new petroleum and gas service contracts to increase profitability. The Company is also looking to explore areas adjacent to the Libertad Field in northern Cebu that is producing marginally.

The Company submitted three applications to the Department of Energy (DOE) last April 2012. FBI bids for the 640,000-hectare Area 10 in East Palawan, 600,000-hectare Area 11 in Cotabato and 482,000-hectare Area 15 in Sulu Sea, all applications were accepted by the DOE. If awarded with at least one area, FPI resources and time will be devoted to that particular area. With the help of potential partners, exploration might start next year. As at December 31, 2012, contracts for those areas mentioned were not yet awarded by the DOE to any qualified bidders.

To date, the Company's main source of revenue came from its 33.33% capital stock investment in Forum Exploration, Inc. (FEI), a subsidiary of Pangilinan-led Forum Energy Plc. and the project operator for Libertad gas field or Service Contract (SC) 40. With around 72.5 million cubic feet of gas representing net revenue of \$88,000 as at December 31, 2012 after FEI commercial production commenced last February 6, 2012, the management of FPI is hoping for future realization of its return on investment.

The Company's management believes that the above management plans are sufficient to provide the Company the ability to continue as a going concern. Accordingly, the financial statements have been prepared on a going concern basis.

Writing-Off of Investments

Express Savings Bank, Inc. (ESBI)

ESBI was 56% owned by the Company as of December 31, 2007. During 2007, the Company did not avail of its pre-emptive right to subscribe for additional shares in ESBI's increase in capitalization. This diluted the Company's interest in ESBI. In 2008, the Company eventually ceased to have control in ESBI.

On June 3, 2009, the Company executed a deed of absolute sale for its 127,415 shares in ESBI for P179.63 per share or equivalent to P22,887,556. The carrying amount of 289,806 shares in ESBI as of December 31, 2008 amounted to P1,22,592,758 or P423.02 per share. The difference between selling price and cost per share multiply by the number of ESBI shares as of December 31, 2008 was recognized as impairment loss in 2008.

The investment had been recorded for P22,887,556 in the 2008 audited financial statements but the said amount represent only 127,415 shares out of 289,806 shares or 44%. An impairment loss of P99,705,202 was recorded which resulted to understatement of available-for-sale financial assets and overstatement of impairment loss in 2008 amounting to P29,170,296.

The fair value of ESBI investment as of December 31, 2009 was based on the actual partial sale that occurred on July 13, 2010 in which 46,602 shares were sold for P4,660,200 at P100/share.

On August 12, 2010, the Company executed a deed of absolute sale for its 115,789 shares in ESBI at P100 per share or equivalent to P11,578,900 which is equal to the carrying value as of December 31, 2009 of P11,578,900. The Company reclassified the corresponding unrealized fair value loss amounting to P9,220,278 from unrealized fair value loss on available-for-sale financial assets in equity to the statement of comprehensive income.

On July 8, 2011, the Monetary Board (MB) of the Bangko Sentral ng Pilipinas placed Express Savings Bank, Inc. under receivership of the Philippine Deposit Insurance Corporation (PDIC) by virtue of MB resolution No. 987.B. As receiver, PDIC took over the bank on July 8, 2011. In 2011, the management,

upon recommendation of the Audit Committee, has written off its remaining investment in ESBI. The Company reclassified the corresponding unrealized fair value loss amounting to P3,710,917 from unrealized fair value loss on available-for-sale financial assets in equity to the statement of comprehensive income.

Forum Coal Cebu Holdings, Inc. (FCCHI)

The Company owns 60% of the stockholdings of Forum Coal Cebu Holdings, Inc. (FCCHI), a domestic corporation registered with the SEC on February 3, 2006. Its primary purpose is to acquire, hold and dispose of bonds, debentures, promissory notes, shares of capital and the likes, without engaging as a dealer or broker of securities. Its registered office is located at 14th Floor Pearlbank Center, 146 Valero Street, Salcedo Village, Makati City.

On November 30, 2009, FCCHI was formally dissolved pursuant to a resolution duly adopted by the FCCHI's Board of Directors and Stockholders representing at least two-thirds (2/3) of the outstanding capital stock dated October 9, 2009. Such dissolution was subsequently approved by the SEC on July 6, 2012.

In a special meeting held last November 21, 2011, the Company has decided to provide full valuation allowance on its investment in a subsidiary. Consequently, the Company recognized impairment loss of P3,888,000 in 2011.

On July 19, 2012, the Board of Directors approved the write-off of the investments in a subsidiary. As per Corporation Code of the Philippines, upon approval by the SEC of the amended Articles of Incorporation to shorten the corporate term, the corporation shall be deemed dissolved without any further proceedings. **Hence, starting 2012, the Company did not present consolidated financial statements.**

ii) Events that will Trigger Direct of Contingent Financial Obligation

Since Forum Pacific Inc. are still looking a strategic partner to enhance the development of the company specially in exploration business, the company are no events that will trigger direct of contingent financial obligation that is material to Forum Pacific Inc. including any default or acceleration of an obligation.

(ii) Material Off-Balance Sheet Transactions, Arrangements, Obligations

There are no material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of Forum Pacific Inc. with unconsolidated entities or other persons created during the reporting period.

(iii) Commitment For Capital Expenditures

The material commitments for capital expenditures of the company are primarily includes; salaries and wages, taxes, depreciation and utilities and other related overheads. Since the parent company, still focus on looking for a strategic partner, there are no major expenses of the business for the year.

(iv) Any Known Trends, Events of Uncertainties (Material Impact on Net Sales / Net Income)

The Company is mainly exposed to liquidity risk through its maturing liabilities. The Company has a policy of regularly monitoring its cash position to ensure that maturing liabilities will be adequately met. Liquidity refers to the risk that the Company will not be able to meet its financial obligations as they fall due.

The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The details of the maturity analysis of the Company's liabilities are as follows:

June 30, 2013		Total	On demand	Less than three months	3-12 months	1-5 years
Advances from related parties	P	3,416,398	P –	P –	P –	P 3,416,398
Trade and other payables		38,326	–	–	38,326	–
	P	3,454,724	P –	P –	P 38,326	P 3,416,399

June 30, 2012		Total	On demand	Less than three months	3-12 months	1-5 years
Advances from related parties	P	3,643,770	P –	P –	P –	P 3,643,770
Trade and other payables		1,697,074	–	–	1,697,074	–
	P	5,340,844	P –	P –	P 1,697,074	P 3,643,770

(v) Significant Element of Income or Loss That Did Not Arise From Continuing Operation

PFRS 9, Financial Instruments (effective January 1, 2015). This standard addresses the classification, measurement and recognition of financial assets and financial liabilities. PFRS 9 was issued in November 2009 and October 2010. It replaces the parts of PAS 39 that relate to the classification and measurement of financial instruments. PFRS 9 requires financial assets to be classified into two measurement categories: those measured at fair value and those measured at amortized cost. The determination is made at initial recognition. The classification depends on the entity's business model for managing its financial instruments and the contractual cash flow characteristics of the instruments. For financial liabilities, the standard retains most of the PAS 39 requirements. The main change is that, in cases where the fair value option is taken for financial liabilities, the part of a fair value change due to an entity's own credit risk is recorded in other comprehensive income rather than the profit or loss, unless this creates an accounting mismatch.

The Company is yet to assess PFRS 9's full impact and will adopt PFRS 9 beginning January 1, 2015. The Company will also consider the impact of the remaining phase of PFRS 9 when completed by the IASB and adopted by the FRSC.

(vi) Material Changes on Line Items in Financial Statements

Material changes on line items in financial statements are presented under the captions 'Changes in Financial Condition' and 'Changes in Operating Results' above, see attached Notes to Financial Statements.

(vii) Effect of Seasonal Changes in the Financial Condition or Results of Operations

The financial condition or results of operations is not affected by any seasonal change.

PART II - OTHER INFORMATION

(1) Market Information

a) The principal market of Forum Pacific Inc. common equity is the Philippine Stock Exchange, Inc. (PSE) where it was listed. Here are list of the high and low sales price by quarter:

“ CLASS A ”

		<u>High</u>	<u>Low</u>
2013	First Quarter	0.235	0.215
	Second Quarter	0.219	0.151
2012		<u>High</u>	<u>Low</u>
	First Quarter	0.280	0.270
	Second Quarter	0.200	0.200
	Third Quarter	0.230	0.216
	Fourth Quarter	0.230	0.200
2011		<u>High</u>	<u>Low</u>
	First Quarter	-	-
	Second Quarter	0.980	0.140
	Third Quarter	0.240	0.200
	Fourth Quarter	0.280	0.150

The closing market price is P0.219 per share as of the latest trading date at June 25, 2013. The Corporation has only one class of registered security, “Class A – Common Shares”.

NOTES TO INTERIM FINANCIAL STATEMENTS

June 30, 2013

Note 1 – Organizational Information

Forum Pacific, Inc., (the “Company”), was incorporated in the Philippines on January 8, 1993 primarily to engage in investing, purchasing and acquiring assets of any kind and description with the secondary purpose of engaging in the exploration, development and production of petroleum and related products as well as other mineral and chemical substances.

The Company’s shares are listed and traded in the Philippine Stock Exchange (PSE). Its principal office is located at 35th Floor One Corporate Center, Doña Julia Vargas Ave. corner Meralco Ave., Ortigas Center, Pasig City.

The Company has 60% ownership interest in Forum Coal Cebu Holdings, Inc. (FCCHI).

On November 30, 2009, FCCHI was formally dissolved pursuant to a resolution duly adopted by the FCCHI’s Board of Directors and Stockholders representing at least two-thirds (2/3) of the outstanding capital stock dated October 9, 2009. Such dissolution was subsequently approved by the SEC on July 6, 2012.

In a special meeting held last November 21, 2011, the Company has decided to provide full valuation allowance on its investment in FCCHI. On July 19, 2012, the Board of Directors approved the write-off of the investments in FCCHI. As per Corporation Code of the Philippines, upon approval by the SEC of the amended Articles of Incorporation to shorten the corporate term, the corporation shall be deemed dissolved without any further proceedings. **Hence, starting 2012, the Company did not present consolidated financial statements.**

Note 2 – Management Assessment of the Going Concern Assumption and Business Plans

Management believes that the going concern assumption is appropriate despite the existence of material uncertainty caused by recurring substantial losses of the Group. The Company had incurred losses from its operations amounting to P1,184,062, P1,452,243 and P1,265,213 for period as of June 30, 2013, June 30, 2012 and December 31, 2012, respectively. Due to prior period losses, the Company has sustained a deficit of P798,931,523, P797,934,491 and P797,747,461 as of June 30, 2013, June 30, 2012 and December 31, 2012, respectively.

On August 31, 2010, the Company received an order of revocation of the registration and the permit to sell the Company’s securities due to late filing of the Parent Company’s 2009 annual reports. On September 8, 2010, the Company requested for an extension of time until September 30, 2010 for the filing of the Company’s 2009 audited financial statements which was granted by SEC in a letter dated September 13, 2010. On October 5, 2010, the Company again requested the SEC an additional thirty (30) working days within which to comply with the letter from the SEC dated August 31, 2010. However, on October 7, 2010, the Company’s request was denied and the SEC provided a non-extendible period of three (3) days from receipt of the letter within which to submit the 2009 annual reports.

Subsequently on February 14, 2011, the Company paid fines and penalties in the amount of P2.77 million in lieu of the Company’s revocation of Registration of securities and Permit to sell securities.

On May 13, 2011, the Company again paid SEC in the amount of P760,500 as payment for its outstanding fines and penalties. Upon payment, PSE lifted the Company’s revocation of Registration of Securities and Permit to sell.

Business Plans

To address the foregoing matters that may raise doubt on the Company's ability to continue as a going concern, management is banking on new petroleum and gas service contracts to increase profitability. The Company is also looking to explore areas adjacent to the Libertad Field in northern Cebu that is producing marginally.

The Company submitted three applications to the Department of Energy (DOE) last April 2012. FBI bids for the 640,000-hectare Area 10 in East Palawan, 600,000-hectare Area 11 in Cotabato and 482,000-hectare Area 15 in Sulu Sea, all applications were accepted by the DOE. If awarded with at least one area, FPI resources and time will be devoted to that particular area. With the help of potential partners, exploration might start next year. As at December 31, 2012, contracts for those areas mentioned were not yet awarded by the DOE to any qualified bidders.

To date, the Company's main source of revenue came from its 33.33% capital stock investment in Forum Exploration, Inc. (FEI), a subsidiary of Pangilinan-led Forum Energy Plc. and the project operator for Libertad gas field or Service Contract (SC) 40. With around 72.5 million cubic feet of gas representing net revenue of \$88,000 as at December 31, 2012 after FEI commercial production commenced last February 6, 2012, the management of FPI is hoping for future realization of its return on investment.

The Company's management believes that the above management plans are sufficient to provide the Company the ability to continue as a going concern. Accordingly, the financial statements have been prepared on a going concern basis.

BASIS OF PREPARATION OF INTERIM FINANCIAL STATEMENT

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of certain investments, in accordance with applicable Philippine Accounting Standards and in accordance with reporting practices applicable to the subsidiary bank.

The financial statements are presented in Philippine pesos, which is the Company's functional currency.

The financial statements have been prepared in accordance with the Philippine Financial Reporting Standards (PFRS), which are accounting principles generally accepted in the Philippines. These are the Company's first PFRS financial statements where PRFS 1, "First Time Adoption of the Philippine Financial Reporting Standards", has been applied.

The preparation of the financial statements in conformity with PFRS requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Note 3 – Summary of Significant Accounting Policies

The significant accounting policies that have been used in the preparation of these Company financial statements are summarized below and in the succeeding pages. The policies have been consistently applied to all years presented, unless otherwise stated.

Basis of Preparation

The financial statements have been prepared on a historical cost basis, except otherwise stated.

The financial statements are presented in Philippine peso, the Company's functional currency. All amounts are rounded to the nearest peso except when otherwise indicated.

Statement of Compliance

The financial statements of the Company have been prepared in accordance with Philippine Financial Reporting Standards (PFRS). The term PFRS in general includes all applicable PFRS, Philippine Accounting Standards (PAS), interpretations of the Philippine Interpretations Committee (PIC), Standing Interpretations Committee (SIC) and International Financial Reporting Interpretations Committee (IFRIC) which have been approved by the Financial Reporting Standards Council (FRSC) and adopted by the SEC.

Changes in Accounting Policies and Disclosures

The accounting policies adopted are consistent with those of previous financial year except for the following new and amended PFRS and Philippine Interpretations which were adopted as at January 1, 2012.

PAS 12, Income Taxes (Amendment) - Recovery of Underlying Assets, effective January 1, 2012, clarifies the determination of deferred tax on investment property measured at fair value. The amendment introduces a rebuttable presumption that deferred tax on investment property measured using the fair value model in PAS 40 should be determined on the basis that its carrying amount will be recovered through sale. Furthermore, it introduces the requirements that deferred tax on nondepreciable assets that are measured using the revaluation model in PAS 16 always be measured on a sale basis of the asset. This amendment is currently not applicable to the Company's financial statements.

PFRS 1 (Amendment), First-time Adoption of PFRS - Fixed Dates and Hyperinflation, effective July 1, 2011. The amendment includes two changes to PFRS 1, First-time adoption of PFRS. The first replaces references to a fixed date of January 1, 2004 with 'the date of transition to PFRS', thus eliminating the need for entities adopting PFRS for the first time to restate derecognition transactions that occurred before the date of transition to PFRS. The second amendment provides guidance on how an entity should resume presenting financial statements in accordance with PFRS after a period when the entity was unable to comply with PFRS because its functional currency was subject to severe hyperinflation. This amendment is currently not applicable to the Company's financial statements.

PFRS 7 (Amendment), Financial Instruments: Disclosures - Enhanced Derecognition Disclosure Requirements, effective July 1, 2011, requires additional disclosures about financial assets that have been transferred but not derecognized to enable the user of the Company's financial statements to understand the relationship with those assets that have not been derecognized and their associated liabilities. In addition, the amendment requires disclosures about continuing involvement in derecognized assets to enable the user to evaluate the nature of, and risks associated with, the entity's continuing involvement in those derecognized assets. The amendment affects the disclosure only and has no impact on the Company's financial position or performance.

New Accounting Standards, Interpretations and Amendments to Existing Standards That Became Effective on January 1, 2013

PAS 1, Financial Statement Presentation – Presentation of Items of Other Comprehensive Income. The amendment to PAS 1 change the grouping of items presented in other comprehensive income. Items that can be reclassified (or "recycled") to profit or loss at a future point in time (for example, upon derecognition or settlement) will be presented separately from items that will never be recycled. The amendment affects presentation only and has therefore no impact on the Company's financial position or performance.

PAS 19 (Amendment), Employee Benefits. Amendments to PAS 19 range from fundamental changes such as removing the corridor mechanism and the concept of expected returns on plan assets to simple clarifications and rewording. The revised standard also requires new disclosures such as, among others, a sensitivity analysis for each significant actuarial assumption, information on asset-liability matching strategies, duration of the defined benefit obligation, and disaggregation of plan assets by nature and risk. The amendments become effective for annual periods beginning on or after January 1, 2013. The Company has to apply the amendments retroactively to the earliest period presented.

PAS 27 (As Revised in 2011) Separate Financial Statement. As a consequence of the new PFRS 10, *Consolidated Financial Statements*, and PFRS 12, *Disclosure of Interests in Other Entities*, what remains of PAS 27 is limited to accounting for subsidiaries, jointly controlled entities, and associates in separate financial statements. The adoption of the revised standard has no impact on the Company's financial position or performance.

PAS 28, (As Revised in 2011) Investments in Associates and Joint Ventures. As a consequence of the new PFRS 11, *Joint Arrangements*, and PFRS 12, PAS 28 has been renamed PAS 28, *Investment in Associates and Joint Ventures*, and describes the application of the equity method to investments in joint ventures in addition to associates. The adoption of the revised standard has no impact on the company's financial position or performance.

PFRS 7, (Amendment) Financial Instruments: Disclosures – Offsetting Financial Assets and Financial Liabilities. These amendments require an entity to disclose information about rights of set-off and related arrangements (such as collateral agreements). The new disclosures are required for all recognized financial instruments that are set off in accordance with PAS 32, *Financial Instruments: Presentation and Disclosure*. These disclosures also apply to recognized financial instruments that are subject to an enforceable master netting arrangement or 'similar agreement', irrespective of whether they are set-off in accordance with PAS 32. The amendments require entities to disclose, in a tabular format unless another format is more appropriate, the following minimum quantitative information. This is presented separately for financial assets and financial liabilities recognized at the end of the reporting periods:

- a) The gross amount of those recognized financial assets and recognized financial liabilities;
- b) The amounts that are set off in accordance with the criteria in PAS 32 when determining the net amounts presented in the consolidated balance sheet;
- c) The net amounts presented in the consolidated balance sheet;
- d) The amounts subject to an enforceable master netting arrangement or similar agreement that are not otherwise included in (b) above including:
 - i. Amounts related to recognized financial instruments that do not meet some or all of the offsetting criteria in PAS 32; and
 - ii. Amounts related to financial collateral (including cash collateral); and
- e) The net amount related after deducting the amounts in (d) from the amounts in (c) above.

The amendments to PFRS 7 are to retrospectively applied for annual periods beginning on or after January 1, 2013. The amendments affect disclosures only and have no impact on the Company's financial position or performance.

PFRS 10, Consolidated Financial Statements. PFRS 10 replaces the portion of PAS 27, *Consolidated and Separate Financial Statements*, that address the accounting for consolidated financial statements. It also includes the issue raised in SIC-12, *Consolidation – Special Purpose Entities*. PFRS 10 establishes a single control model that applies to all entities including special purpose entities. The changes introduced by PFRS 10 will require management to exercise significant judgment to determine which entities are controlled, and therefore, are required to be consolidated by a parent, compared with the requirements that were in PAS 27. The adoption of the revised standard has no impact on the Company's financial position or performance.

PFRS 11, Joint Arrangements. PFRS 11 replaces PAS 31, *Interests in Joint Ventures*, and SIC-13, *Jointly-controlled Entities – Non-monetary Contributions by Venturers*. PFRS 11 removes the option to account for jointly controlled entities (JCEs) using proportionate consolidation. Instead, JCEs that meet the definition of a joint venture must be accounted for using the equity method. The adoption of the revised standard has no impact on the Company's financial position or performance.

PFRS 12, Disclosures of Interest in Other Entities, includes all of the disclosures related to consolidated financial statements that were previously in PAS 27, as well as all the disclosures that were previously included in PAS 31 and PAS 28, *Investment in Associates*. These disclosures relate to an entity's interests in subsidiaries, joint arrangements, associates and structured entities. A number of new disclosures are also required. The adoption of the revised standard has no impact on the Company's financial position or performance.

PFRS 13, Fair Value Measurement. PFRS 13 establishes a single source of guidance under PFRS for all fair value measurements. PFRS 13 does not change when an entity is required to use fair value, but rather provides guidance on how to measure fair value under PFRS when fair value is required or permitted. This standard should be applied prospectively as of the beginning of the annual period in which it is initially applied. Its disclosure requirements need not be applied in comparative information provided for period before initial application of PFRS 13. The adoption of the revised standard has no material impact on the Company's financial position or performance.

Philippine Interpretation of IFRIC 20, Stripping Costs in the Production Phase of a Surface Mine (effective for annual periods beginning on or after January 1, 2013). This interpretation applies to waste removal costs ("stripping costs") that are incurred in surface mining activity during the production phase of the mine ('production stripping cost'). If the benefit from the stripping activity will be realized in the current period, an entity is required to account for the stripping activity costs as part of the cost of inventory. When the benefit is the improved access to ore, the entity should recognize these costs as a non-current asset, only if certain criteria are met ("stripping activity asset"). The stripping activity asset is accounted for as an addition to, or as an enhancement of, an existing asset. After initial recognition, the stripping activity asset is carried at its cost or revalued amount less depreciation or amortization and less impairment losses, in the same way as the existing asset of which it is part. The adoption of the interpretation has no impact on the Company's financial position or performance.

Improvements to PFRSs

- PFRS 1, First-time Adoption of PFRS – Borrowing Costs

The amendment clarifies that, upon adoption of PFRS, an entity that capitalized borrowing costs in accordance with its previous generally accepted accounting principles, may carry forward, without any adjustment, the amount previously capitalized in its opening statement of financial position at the date of transition. Subsequent to the adoption of PFRS, borrowing costs are recognized in accordance with PAS 23, *Borrowing Costs*. The amendment does not apply to the Company as it is not a first-time adopter of PFRS.

- PAS 1, Presentation of Financial Statements – Clarifications of the Requirements for Comparative Information

The amendments clarify the requirements for comparative information that are disclosed voluntarily and those that are mandatory due to retrospective application of an accounting policy, or retrospective restatement or reclassification of items in the financial statements. An entity must include comparative information in the related notes to the financial statements when it voluntarily provides comparative information beyond the minimum required comparative period. The additional comparative period does not need to contain a complete set of financial statements. On the other hand, supporting notes for the third balance sheet (mandatory when there is a retrospective application of items in the financial statements) are not required. The amendments affect disclosures only and have no impact on the Company's financial position or performance.

- PAS 16, *Property, Plant and Equipment – Classification of Servicing Equipment*

The amendment clarifies that spare parts, stand-by equipment and servicing equipment should be recognized as property, plant and equipment when they meet the definition of property, plant and equipment and should be recognized as inventory if otherwise. The amendment does not have any significant impact on the Company's financial position or performance.

- PAS 32, *Financial Instruments: Presentation – Tax Effect of Distribution to Holders of Equity Instruments*

The amendment clarifies that income taxes relating to distributions to equity holders and to transaction costs of an equity transaction are accounted for in accordance with PAS 12, *Income Taxes*. The adoption of the amendment does not have any impact on the Company's financial position or performance.

- PAS 34, *Interim Financial reporting - Interim Financial Reporting and Segment Information for Total Assets and Liabilities*

The amendment clarifies that the total assets and liabilities for a particular reportable segment need to be disclosed only when the amounts are regularly provided to the chief operating decision maker and there has been a material change from the amount disclosed in the entity's previous annual financial statements for that reportable segment. The amendment affects disclosures only and has no impact on the Company's financial position or performance.

Effective in 2014

PAS 32 (Amendment), Financial Instruments: Presentation – Offsetting Financial Assets and Financial Liabilities, effective January 1, 2014. These amendments to PAS 32 clarify the meaning of "currently has a legally enforceable right to set off" and also clarify the application of the PAS 32 offsetting criteria to settlement systems (such as central clearinghouse systems) which apply gross settlement mechanisms that are not simultaneous. The Company has yet to assess the full impact of the amendment and intends to adopt the amendment beginning January 1, 2014.

PFRS 1 (Amendment), Government Loans, effective January 1, 2013. These amendments add an exception to the retrospective application of PFRS. First-time adopters are required to apply the requirements in PFRS 9, *Financial Instruments* (If PFRS 9 is not yet adopted, references to PFRS 9 in the amendments shall be read as references to PAS 39, *Financial Instruments: Recognition and Measurement*) and PAS 20, *Accounting for Government Grants and Disclosure of Government Assistance* prospectively to government loans existing at the date of transition to PFRS. This new standard will not have an impact on the Company's financial statements.

Effective in 2015

PFRS 9, Financial instruments, effective January 1, 2015. This standard addresses the classification, measurement and recognition of financial assets and financial liabilities. PFRS 9 was issued in November 2009 and October 2010. It replaces the parts of PAS 39 that relate to the classification and measurement of financial instruments. PFRS 9 requires financial assets to be classified into two measurement categories: those measured as at fair value and those measured at amortized cost. The determination is made at initial recognition. The classification depends on the entity's business model for managing its financial instruments and the contractual cash flow characteristics of the instruments. For financial liabilities, the standard retains most of the PAS 39 requirements. The main change is that, in cases where the fair value option is taken for financial liabilities, the part of a fair value change due to an entity's own credit risk is recorded in other comprehensive income rather than the profit or loss, unless this creates an accounting mismatch.

The Company is yet to assess PFRS 9's full impact and will adopt PFRS 9 beginning January 1, 2015. The Company will also consider the impact of the remaining phases of PFRS 9 when completed by the IASB and adopted by the FRSC.

Financial Instruments

Initial recognition, measurement and classification of financial instruments

The Company recognizes financial assets and financial liabilities in the Company statement of financial position when it becomes a party to the contractual provisions of the instrument. Purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place are recognized on the settlement date.

Financial instruments are recognized initially at fair value, which is the fair value of the consideration given (in case of an asset) or received (in case of a liability). The initial measurement of financial instruments includes transaction costs, except for those financial assets and liabilities at fair value through profit or loss (FVPL) where the transaction costs are charged to expense in the period incurred.

On initial recognition, the Company classifies its financial assets in the following categories: loans and receivables, and available-for-sale (AFS) financial assets. The Company also classifies its financial liabilities into FVPL and other financial liabilities. The classification depends on the purpose for which the investments are acquired and whether they are quoted in an active market. Management determines the classification of its financial assets and financial liabilities at initial recognition and, where allowed and appropriate, re-evaluates such designation at the end of each reporting period. Financial instruments are classified as liabilities or equity in accordance with the substance of the contractual arrangement. Interest, dividends, gains and losses relating to a financial instrument or a component that is a financial liability are reported as expense or income. Distributions to holders of financial instruments classified as equity are charged directly to equity, net of any related income tax benefits.

As at June 30, 2013, December 31, 2012 and June 30, 2012, the Company did not hold any financial assets at FVPL and HTMI, and financial liabilities at FVPL.

Determination of Fair Value and Fair Value Hierarchy

The fair value of financial instruments traded in active markets at reporting date is based on their quoted market price or dealer price quotations (bid price for long positions and asking price for short positions), without any deduction for transaction costs. When current bid and asking prices are not available, the price of the most recent transaction provides evidence of the current fair value as long as there has not been a significant change in economic circumstances since the time of the transaction. For financial instruments where there is no active market, except for investment in unquoted equity securities, fair value is determined by using appropriate valuation techniques. Such techniques include using recent arm's length market transactions; reference to current market value of another instrument, which is substantially the same; discounted cash flow analysis; and options pricing models. In the absence of a reliable basis for determining fair value, investments in unquoted equity securities are carried at cost, net of impairment.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;
- Level 2: other techniques for which all inputs which have significant effect on the recorded fair value are observable, either directly or indirectly; and
- Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

Fair value measurement disclosures of AFS financial assets are presented in Note 15.

"Day 1" Difference

When the transaction price in a non-active market is different from the fair value of other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Company recognizes the difference between the transaction price and fair value (a

“Day 1” difference) in the Company statement of comprehensive income unless it qualifies for recognition as some other type of asset or liability. In cases where use is made of data which is not observable, the difference between the transaction price and model value is only recognized in the Company statement of comprehensive income when the inputs become observable or when the instrument is derecognized. For each transaction, the Company determines the appropriate method of recognizing the “Day 1” difference amount.

Amortized Cost of Financial Instruments

Amortized cost is computed using the effective interest method less any allowance for impairment and principal repayment or reduction. The calculation takes into account any premium or discount on acquisition and includes transaction costs and fees that are an integral part of the effective interest rate.

Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, loans and receivables are subsequently carried at amortized cost using the effective interest rate method less any allowance for impairment. Amortized cost is calculated taking into account any discount or premium on acquisition and includes transaction costs and fees that are an integral part of the effective interest rate and transaction costs. Gains and losses are recognized in the comprehensive income when the loans and receivables are derecognized or impaired, as well as through the amortization process.

These financial assets are included in current assets if maturity is within twelve (12) months from the end of reporting period. Otherwise, these are classified as noncurrent assets.

The Company’s loans and receivables comprise of cash and advances to related parties (see Notes 5 and 10).

AFS Financial Assets

AFS financial assets are non-derivative financial assets that are designated in this category or are not classified in any of the three other categories. The Company designates financial instruments as AFS if they are purchased and held indefinitely and may be sold in response to liquidity requirements or changes in market conditions. After initial recognition, AFS financial assets are measured at fair value with unrealized gain or loss being recognized in other comprehensive income as “Unrealized fair value gain (loss) on AFS financial assets”, net of deferred income tax effect. When fair value cannot be reliably measured, AFS financial assets are measured at cost less any impairment in value.

When the investment is disposed or determined to be impaired, the cumulative gains or losses recognized as other comprehensive income is reclassified from equity to the Company statement of comprehensive income as reclassification adjustment. The amount of the cumulative loss that is to be reclassified from equity to the Company statement of comprehensive income is the difference between the acquisition cost (net of any principal repayment and amortization) and current fair value, less any impairment loss on that financial assets previously recognized in the Company statement of comprehensive income.

Interest earned on the investments is reported as interest income using the effective interest rate method. Dividends earned on investments are recognized in the Company statement of comprehensive income when the right of payment has been established. These financial assets are classified as noncurrent assets unless the intention is to dispose of such assets within twelve (12) months from the end of reporting date.

Other Financial Liabilities

Other financial liabilities are initially recorded at fair value, less directly attributable transaction costs. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the effective interest rate method. Amortized cost is calculated by taking into account any issue costs, and any discount or premium on settlement. Gains and losses are recognized in the Company statement of

comprehensive income when the liabilities are derecognized as well as through the amortization process. Other financial liabilities are initially recorded at fair value, less directly attributable transaction costs. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the effective interest rate method. Amortized cost is calculated by taking into account any issue costs, and any discount or premium on settlement. Gains and losses are recognized in the Company statement of comprehensive income when the liabilities are derecognized as well as through the amortization process.

As at June 30, 2013, December 31, 2012 and June 30, 2012, included in other financial liabilities are the Company's accounts payable and other liabilities, and advances from related parties (see Notes 8 and 10).

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Company statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

Derecognition of Financial Assets and Financial Liabilities

(a) Financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- the rights to receive cash flows from the asset have expired;
- the Company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to third party under a "pass-through" arrangement; or
- the Company has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all risks and rewards of the asset, but has transferred control of the asset.

Where the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Company's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

(b) Financial liabilities

A financial liability is derecognized when the obligation under the liability was discharged, cancelled or has expired.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the Company statement of comprehensive income.

Impairment of Financial Assets

The Company assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred "loss event") and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.

Evidence of impairment may include indications that the contracted parties or a group of contracted parties is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization, and where observable data indicate that there is measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

(a) *Financial assets carried at cost*

If there is objective evidence that an impairment loss on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, or on a derivative asset that is linked to and must be settled by delivery of such an unquoted equity instrument has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the current market rate of return of a similar financial asset.

(b) *Loans and receivables*

The Company first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, and individually or collectively for financial assets that are not individually significant. If it is determined that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, the asset is included in the group of financial assets with similar credit risk and characteristics and that group of financial assets is collectively assessed for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognized are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss on financial assets carried at amortized cost has been incurred, the amount of loss is measured as a difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (i.e., the effective interest rate computed at initial recognition). The carrying amount of the asset is reduced through the use of an allowance account. The amount of loss is recognized in the Company statement of comprehensive income.

If in a subsequent period, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognized, and the increase or decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is increased or reduced by adjusting the allowance for impairment losses account. If a future write-off is later recovered, the recovery is recognized in the Company statement of comprehensive income under Other income account. Any subsequent reversal of an impairment loss is recognized in the Company statement of comprehensive income to the extent that the carrying value of the asset does not exceed its amortized cost at reversal date. Interest income continues to be accrued on the reduced carrying amount based on the original effective interest rate of the asset. Loans, together with the associated allowance, are written off when there is no realistic prospect of future recovery and all collateral, if any, has been realized or has been transferred to the Company.

(c) *AFS financial assets*

For AFS financial assets, the Company assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. In case of equity investments classified as AFS financial assets, this would include a significant or prolonged decline in fair value of the investments below its cost. The determination of what is "significant" or "prolonged" requires judgment. Where there is evidence of impairment, the cumulative loss measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognized in other comprehensive income is removed from equity and recognized in the Company statement of comprehensive income.

Impairment losses on equity investments are not reversed through the Company statement of comprehensive income. Increases in fair value after impairment are recognized directly as other comprehensive income. In the case of debt instruments classified as AFS financial assets, increase in fair value after impairment is reversed in Company statement of comprehensive income.

Cash

The Company's cash represents cash in bank which carries interest at respective bank deposit rate.

Input Tax

The Company's input tax is stated at face value less provision for impairment, if any. Allowance for unrecoverable input tax, if any, is maintained by the Company at a level considered adequate to provide for potential uncollectible portion of the claims. The Company, on a continuing basis, makes a review of the status of the claims designed to identify those that may require provision for impairment losses.

Other Non-Current Assets

Other noncurrent assets are recognized when paid and are carried at cost.

Investment in a Subsidiary

The Company's investment in a subsidiary is accounted for in these separate Company financial statements at cost, less any impairment loss. Impairment loss is provided when there is objective evidence that the investments in a subsidiary and associates will not be recovered. The impairment loss is measured as the difference between the carrying amount of the investment and the present value of the estimated cash flows discounted at the current market rate of return for similar financial asset. Such amount of the impairment loss is recognized in the statement of comprehensive income.

Subsidiaries are entities over which the Company has the power to govern the financial reporting policies generally accompanying a shareholding of more than one half of the voting rights. The Company obtains and exercises control through voting rights. The existence and effect of potential voting rights that are currently exercisable and convertible are considered when assessing whether the Company controls another entity.

Impairment of Non-financial Assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognized as an expense immediately.

When an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset in prior years. A reversal of an impairment loss is recognized as income.

Accounts Payable and Other Liabilities

Accounts payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payables are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer) while non-trade payables are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities.

Accounts payable and other liabilities are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method.

Retirement Benefits

The Company does not provide any retirement benefits because it does not have any employees as at June 30, 2013, December 31, 2012 and June 30, 2012. The Company's administrative functions are performed by its related party, The Wellex Group, Inc. (TWGI).

Current and Deferred Income Tax

The tax expense for the period comprises current and deferred tax. Tax is recognized in the Company statement of comprehensive income, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at reporting date. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is recognized, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill; deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable income. Deferred income tax is determined using tax rates that have been enacted or substantively enacted by the reporting date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each reporting date, the Company reassesses the need to recognize previously unrecognized deferred income tax assets.

Deferred income tax assets are recognized for all deductible temporary differences, carryforward benefits of unused tax credits from excess of minimum corporate income tax (MCIT) over regular corporate income tax (RCIT) and unused net operating loss carryover (NOLCO), to the extent that it is probable that sufficient future taxable profits will be available against which the deductible temporary differences, carryforward benefits of unused tax credits from excess of MCIT over RCIT and unused NOLCO can be utilized. Deferred income tax liabilities are recognized for all taxable temporary differences.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

Leases

Leases which transfer to the Company substantially all risks and benefits incidental to ownership of the leased item are classified as finance leases and are recognized as assets and liabilities in the Company statement of financial position at amounts equal at the inception of the lease to the fair value of the leased property or, if lower, at the present value of minimum lease payments. Lease payments are apportioned between the finance costs and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance costs are recognized in Company statements of comprehensive income. Capitalized leased assets are depreciated over the shorter of the estimated useful life of the asset or the lease term.

Leases which do not transfer to the Company substantially all the risks and benefits of ownership of the asset are classified as operating leases. Operating lease payments are recognized as expense in the Company statement of comprehensive income on a straight-line basis over the lease term. Associated costs, such as maintenance and insurance, are expensed as incurred.

The Company is a party to an operating lease as a lessee. Payments made under operating leases (less any incentives given by the lessor) are charged to Company statement of comprehensive income.

Equity

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities.

Capital stock represents the par value of the shares that are issued and outstanding as at reporting date.

Treasury shares are own equity instruments which are reacquired, are recognized at cost and deducted from equity. No gain or loss is recognized in the statement of comprehensive income on the purchase, sale issue or cancellation of the Company's own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognized in additional paid-in capital. Voting rights related to treasury shares are nullified for the Company and no dividends are allocated to them respectively. When the shares are retired, the capital stock account is reduced by its par value and the excess of cost over par value upon retirement is debited to additional paid-in capital when the shares were issued and to retained earnings for the remaining balance.

Deficit includes all current and prior period results as disclosed in the statements of comprehensive income.

Revenue Recognition

Revenue is recognized to the extent that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for services provided in the normal course of business.

The following specific recognition criteria must also be met before revenue is recognized:

Interest income is accrued on a timely basis, by reference to the principal outstanding and at the effective interest rate applicable.

Other comprehensive income comprises items of unrealized fair value loss on available-for-sale financial assets that are not recognized in the statement of comprehensive income for the year in accordance with PFRS.

Cost and Expense Recognition

Cost and expenses are recognized in statements of comprehensive income when decrease in future economic benefit related to a decrease in an asset or an increase in a liability has arisen that can be measured reliably. Expenses are recognized in statements of comprehensive income: on the basis of a direct association between the costs incurred and the earning of specific items of income; on the basis of systematic and rational allocation procedures when economic benefits are expected to arise over several accounting periods and the association with income can only be broadly or indirectly determined; or immediately when an expenditure produces no future economic benefits or when, and to the extent that, future economic benefits do not qualify, or cease to qualify, for recognition in the statements of financial position as an asset.

Expenses in the statements of comprehensive income are presented using the nature of expense method.

Foreign Currency-denominated Transactions and Translations

(a) *Functional and Presentation Currency*

The Company considers the Philippine peso as the currency that most fairly represents the economic effect of the underlying transactions, events and conditions. The Philippine Peso is the currency of the primary economic environment in which the Company operates. It is the currency in which the Company measures its performance and reports its operating results.

(b) Transactions and Balances

Transactions denominated in foreign currencies are recorded using the applicable exchange rate at the date of the transaction. Outstanding monetary assets and monetary liabilities denominated in foreign currencies are retranslated using the applicable rate of exchange at the reporting date. Foreign exchange gains or losses are recognized in the statement of comprehensive income.

Related Party Relationships and Transactions

Related party relationship exists when the party has the ability to control or joint control, directly or indirectly, through one or more intermediaries, or exercise significant influence over the other party in making financial and operating decisions. Such relationships also exist between and/or among entities which are under common control or members of the same group with the reporting entity and its key management personnel, directors or stockholders. In considering each possible related party relationship, attention is directed to the substance of the relationships, and not merely to the legal form.

A related party transaction is a transfer of resources, services or obligations between related parties, regardless of whether a price is charged.

Basic Earnings (Loss) Per Share

Basic earnings per share is calculated by dividing the profit (loss) by the weighted average number of common shares in issue during the year, excluding common shares purchased by the Company and held as treasury shares.

Provisions and Contingencies

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

Where discounting is used, the increase in the provision due to the passage of time is recognized as interest expense. When the Company expects a provision or loss to be reimbursed, the reimbursement is recognized as a separate asset only when the reimbursement is virtually certain and its amount is estimable. The expense relating to any provision is presented in the Company statement of comprehensive income, net of any reimbursements.

Contingent liabilities are not recognized in the Company financial statements. They are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements but disclosed when an inflow of economic benefits is probable. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the Company financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the Company financial statements.

Events After the Reporting Date

The Company identifies post-year events as events that occurred after the reporting date but before the date when the Company financial statements were authorized for issue. Post year-end events that provide additional

information about the Company's position at the reporting date (adjusting events) are reflected in the Company financial statements. Post year-end events that are not adjusting events are disclosed in the Company financial statements when material.

Note 4 - Significant Accounting Judgments, And Estimates And Assumptions

The preparation of the Company's financial statements requires management to make judgments and estimates that affect amounts reported in the Company financial statements. These judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Company believes the following represent a summary of these significant judgments and estimate and related impact and associated risks in the Company financial statements.

Significant Accounting Judgments in Applying the Company's Accounting Policies

a) *Functional currency*

The Company considers the Philippine peso as the currency that most fairly represents the economic effect of the underlying transactions, events and conditions. The Philippine Peso is the currency of the primary economic environment in which the Company operates. It is the currency in which the Company measures its performance and reports its operating results.

b) *Classification of financial instruments*

The Company classifies a financial instrument, or its component parts, on initial recognition as a financial asset, a financial liability or an equity instrument in accordance with the substance of the contractual agreement and the guidelines set by PAS 39 on the definitions of a financial asset, a financial liability or equity instrument. In addition, the Company also determines and evaluates its intention and ability to keep the investments until its maturity date.

The substance of a financial instrument, rather than its legal form and the management's intention and ability to hold the financial instrument to maturity generally governs its classification in the statements of financial position.

c) *Determination of fair value of AFS financial assets*

The Company carries AFS financial assets at fair value, which requires extensive use of accounting judgment. While significant components of fair value measurement were determined using verifiable objective evidence, the amount of changes in fair value would differ if the Company utilized different valuation methodologies and assumptions. Any changes in fair value of these AFS financial assets would affect the statements of changes in equity through other comprehensive income.

d) *Write-off of available-for-sale financial assets*

The determination when an investment is other-than-temporarily impaired requires significant judgment. In making this judgment, the Company evaluates, among other factors, the duration and extent to which the fair value of an investment is less than its cost, and the financial health of and near-term business outlook for the investee, including factors such as industry and sector performance, changes in technology, and operational and financing cash flows.

e) *Impairment of investment in a subsidiary and loss of control*

The determination whether or not the Company can recover its investment in a subsidiary requires significant judgment. The Company believes that it cannot recover its investment in Forum Coal Cebu Holdings, Inc.

(subsidiary) since the subsidiary is deemed dissolved as of July 6, 2012, approval by the SEC to shorten its corporate life. Moreover, the Company would not recover anything from the subsidiary since it is in the state of capital deficiency. Consequently, loss of control occurred at the time of approval by the SEC to shorten its corporate life since the subsidiary will become inexistent at that time.

f) Operating lease commitments

The Company has entered into contract of lease for the office space it occupies. The Company has determined that all significant risks and benefits of ownership on these properties will be retained by the lessor. In determining significant risks and benefits of ownership, the Company considered, among others, the significance of the lease term as compared with the estimated useful life of the related asset. The Company accordingly accounted for these as operating leases.

g) Provisions and contingencies

Judgment is exercised by management to distinguish between provisions and contingencies. Policies on recognition and disclosure of provision and disclosure of contingencies are discussed in Note 3, subheadings *Provisions and Contingencies*.

Significant Accounting Estimates and Assumptions

The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

a) Valuation of AFS financial assets

The Company carries certain financial assets at fair value, which requires the extensive use of accounting judgment and estimates. In cases when active market quotes are not available, fair value is determined by reference to the current market value of another instrument which is substantially the same or is calculated based on the expected cash flows of the underlying net base of the instrument. The amount of changes in fair value would differ if the Company utilized different valuation methods and assumptions. Any change in fair value of these financial assets and liabilities would affect profit and loss and equity. The Company's available-for-sale financial assets are recorded at fair value.

Unrealized fair value gain on available-for-sale financial assets of P25,098,279 and P4,166,317 in June 30, 2013 and June 30, 2012, respectively were reported in the equity section of the statements of financial position (see Note 6).

b) Deferred tax assets

The Company reviews the carrying amounts at each reporting date and reduces deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. Due to non-operation of the Company, management expects that the Company will continue to incur losses and the related deferred tax assets will not be utilized in the near future.

The Company's deferred tax assets with full valuation allowance are fully discussed in Note 13.

The Company considers that it is impracticable to disclose with significant reliability the possible effects of sensitivities surrounding the deferred tax assets.

c) Allowance for impairment of advances to related parties

Allowance for impairment of advances to related parties is maintained at a level considered adequate to provide for potentially uncollectible receivables. The level of allowance is based on the status of the advances to related parties, past collection experience and other factors that may affect collectibility. Allowance for impairment loss on advances to related parties amounted to P196,695,828 in June 30, 2013 and June 30, 2012 (see Note 10).

Note 5 - CASH

Cash represents cash in bank with outstanding balance of P196,127, P330,006 and P38,213 as at June 30, 2013, December 31, 2012 and June 30, 2012, respectively.

Note 6 - AVAILABLE-FOR-SALE FINANCIAL ASSETS

Available-for-sale financial assets as at December 31 consist of:

	June 30, 2013	June 30, 2012
Unquoted shares		
Cost	P 73,211,573	P 73,211,573
Impairment loss	(9,320,935)	(9,320,935)
	63,890,638	63,890,638
Quoted shares		
Cost	7,529,480	7,529,480
Net unrealized fair value gain	25,098,279	4,166,317
	32,627,759	11,695,797
	P 96,518,397	P 75,586,435

Investment in unquoted shares of stock represents 33.33% ownership of the Company in Forum Exploration, Inc. (FEI) as at June 30, 2013 and June 30, 2012, and Express Savings Bank, Inc. (ESBI) in 2010 and 2009, respectively. These investments are classified as available-for-sale financial assets as the Company does not participate in the financial and operating policy of the investee which manifests control or significant influence. These investments are stated at cost since there is no quoted price in an active market.

Investment in quoted shares of stock represents investment in Philippine Estates Corporation (PHES), a publicly listed Company. The fair value of these shares has been determined directly by reference to published prices in the active market.

On July 8, 2011, the Monetary Board (MB) of the Bangko Sentral ng Pilipinas placed Express Savings Bank, Inc. under receivership of the Philippine Deposit Insurance Corporation (PDIC) by virtue of MB Resolution No. 987.B. As receiver, PDIC took over the bank on July 8, 2011. In 2011, the management, upon recommendation of the Audit Committee, has written off its remaining investment in ESBI. The Company reclassified the corresponding unrealized fair value loss amounting to P3,710,917 from unrealized fair value loss on available-for-sale financial assets in equity to the statement of comprehensive income.

Management believes that the foregoing carrying amount of the Company's FEI and PHES investments approximate their fair value.

The movements in the net unrealized fair value loss on available-for-sale financial assets are as follows:

	June 30, 2013	June 30, 2012
At beginning of year	P 25,098,279	(P 7,425,459)
Fair value changes during the year	–	7,880,859
Reclassification adjustment due to impairment	–	3,710,917
	P 25,098,279	P 4,166,317

Note 7 - INVESTMENTS IN A SUBSIDIARY

The Company owns 60% of the stockholdings of Forum Coal Cebu Holdings, Inc. (FCCHI), a domestic corporation registered with the SEC on February 3, 2006. Its primary purpose is to acquire, hold and dispose of bonds, debentures, promissory notes, shares of capital and the likes, without engaging as a dealer or broker of securities. Its registered office is located at 14th Floor, Pearlbank Centre, 146 Valero Street, Salcedo Village, Makati City.

On November 30, 2009, FCCHI was formally dissolved pursuant to a resolution duly adopted by the FCCHI's Board of Directors and Stockholders representing at least two-thirds (2/3) of the outstanding capital stock dated October 9, 2009. Such dissolution was subsequently approved by the SEC on July 6, 2012.

Financial information as at September 30, 2009, with regards to FCCHI is shown below:

Total assets	P 269,476,896
Total liabilities	276,197,181
Equity	(P 6,720,285)

In a special meeting held last November 21, 2011, the Company has decided to provide full valuation allowance on its investment in a subsidiary. Consequently, the Company recognized impairment loss of P3,888,000 in 2011.

On July 19, 2012, the Board of Directors approved the write-off of the investments in a subsidiary. As per Corporation Code of the Philippines, upon approval by the SEC of the amended Articles of Incorporation to shorten the corporate term, the corporation shall be deemed dissolved without any further proceedings. Hence, starting 2012, the Company need not present consolidated financial statements.

Note 8 - ACCOUNTS PAYABLE AND OTHER LIABILITIES

Accounts payable and other liabilities as at June 30 consist of:

	June 30, 2013	June 30, 2012
Accrued expenses	P –	P 920,055
Accounts payable	24,000	771,394
Withholding tax payable	14,326	5,625
	P 38,326	P 1,697,074

Accounts payable and other liabilities are carried at cost as these are short-term in nature.

The Company believes that the carrying amount of accounts payable and other liabilities approximates fair value.

Note 9 - CAPITAL STOCK

Details of the Company's capital stock as at June 30, 2013 and June 30, 2012 are as follows:

	Number of Shares	Par value	Total
Capital stock			
Authorized	3,500,000,000	1	P 3,500,000,000
Issued and fully paid	819,355,920	1	P 819,355,920
Subscribed and fully paid			

Subscribed	1,055,644,080	1	P 1,055,644,080
Subscription receivable	(667,456,379)	1	(667,456,379)
	388,187,701	1	P 388,187,701
Subscribed and issued	1,207,543,621	1	P 1,207,543,621
Treasury shares	(36,056,750)	1	(36,056,750)
Issued and outstanding	1,171,486,871	1	P 1,171,486,871

The cost of the Company's treasury shares amounted to P36,056,750 as at December 31, 2012 and 2011. Such treasury shares restrict the Company from declaring an equivalent amount from the unappropriated retained earnings as dividends.

Track record of registration of securities

The Company was originally registered as Cophil Exploration, Inc. with the SEC on January 8, 1993. The Company was listed with the PSE on December 19, 1994 with an initial registered 50 billion shares at P.01 par value per share .

On September 2, 1996, the Board of Directors and stockholders approved a resolution to amend the Company's Article of Incorporation by changing the par value per share of P0.01 to P1.00, removing the pre-emptive rights of shareholders and increasing authorized capital stock from P500 million divided by 50 billion shares to P2 billion divided into 2 billion shares. On September 27, 1996, SEC approved the amendment on the Company's capital structure.

On August 22, 1997, the Board of Directors and the stockholders approved a further increase in the Company's authorized capital stock from P2 billion to P3.5 billion divided into 3.5 billion shares with a par value of P1 per share. On March 11, 1998, SEC approved the Company's increased in authorized capital stock.

Note 10 - RELATED PARTY TRANSACTIONS

The Company, in the normal course of business, has transactions with related parties. Such transactions are unsecured, non-interest bearing and with no definite terms of repayments period.

Relationship, Transactions and Account Balances

Related parties	Relationship	Transactions during the period		Outstanding balance	
		June 30, 2013	December 31, 2012	March 30, 2013	December 31, 2012
The Wellex Group, Inc.	Common key management	P 1,598,725	P 4,241,640	P 166,642,950	P168,241,674
Forum Exploration, Inc	Common key management	-	-	137,188,958	137,188,958

Wellex Industries, Inc.	Common key management	-	-	(666)	(666)

(a) Advances to Forum Exploration, Inc. (FEI)

Advances to FEI pertain to the carrying value of exploration assets transferred by the Company. No transaction in the account balance was recognized for the period ended June 30, 2013, December 31, 2012 and June 30, 2012.

	June 30, 2013	December 31, 2012	June 30, 2012
At beginning and end of the period	P 171,631,076	P 171,631,076	P 171,631,076
Allowance for impairment loss	(34,442,118)	(34,442,118)	(34,442,118)
Net carrying amount	P 137,188,958	P 137,188,958	P 137,188,958

The movement of allowance for impairment loss is as follows:

	June 31, 2013	December 31, 2012	June 30, 2012
At beginning of the period	P 34,442,118	P 34,442,118	P 34,442,118
Provisions during the period – note 11	–	–	–
	P 34,442,118	P 34,442,118	P 34,442,118

(b) *Advances to The Wellex Group, Inc. (TWGI)*

The Company's advances from TWGI consist of advances granted to finance their working capital requirements.

On December 15, 2012, to settle its outstanding obligations to the Company, TWGI issued a one-year promissory note to the Company amounting to P330,495,385 without interest.

In addition, the Company subleases an office space from TWGI starting April 2012. The lease is for a period of two (2) years but renewable thereafter upon mutual agreement of both parties. Total rental and utilities expense charged to operations amounted to P55,500 for the quarter ended June 30, 2013 (see Note 11).

Also in April 2012, the Company has entered into a consultancy agreement with TWGI, whereby the latter will provide corporate planning and financial services on its various corporate functions and undertakings. Total management fee charged to operations amounted to P120,000 for the quarter ended June 30, 2013 (see Note 11).

	June 30, 2013	December 31, 2012
At beginning of the period	P 330,495,385	P 334,737,025
Collection	(1,598,725)	(4,241,640)
	328,896,660	330,495,385
Less allowance for impairment loss	(162,253,710)	(162,253,710)
	P 166,642,950	P 168,241,674

(c) *Advances from Forum Exploration, Inc. Ltd. (FEI – Ltd.)*

The Company received cash advances from Forum (FEI), Ltd. to finance its acquisition of 60% stockholdings of Forum Coal Cebu Holdings, Inc. (FCCHI).

	June 30, 2013	December 31, 2012
At beginning of the period	P 3,415,733	P 3,642,608
Unrealized foreign exchange loss (gain) – note 11	–	(266,875)
	P 3,415,733	P 3,415,733

(d) *Advances from Wellex Industries, Inc.*

The Company received cash advances from Wellex Industries, Inc. for payment of expenses. Outstanding balance as at June 30, 2013 and December 31, 2012 amounted to P666.

(e) *Remuneration to key management personnel*

The Company did not provide remuneration to key management personnel for the quarter ended June 30, 2013. The administrative function of the Company is performed by its related party, TWGI.

Note 11 - COSTS AND EXPENSES

Cost and expenses for the period consists of:

	June 30, 2013	June 30, 2012	December 31, 2012
Professional fees	P 271,784	P 324,400	P 1,341,122
Taxes and licenses	5,050	305,050	320,404
Office supplies	–	8,103	8,347
Membership fees and dues	–	–	250,000
Rent and utilities – note 9	55,500	55,500	166,500
Communication, courier & postage	42,715	–	34,423
Representation	21,250	412	16,437
Printing & reproduction	215,626	223,741	241,966
Miscellaneous	19,849	11,186	14,777
	P 631,774	P 928,392	P 2,393,976

Note 12 - OTHER INCOME (EXPENSES) - net

Other income (expenses) for the years ended December 31 consists of:

	June 30, 2013	June 30, 2012	December 31, 2012
Unrealized foreign exchange gain (loss)	P –	P –	P 226,876
Impairment loss:	–	–	–
Advances from a related party	–	–	–
AFS financial assets	–	–	–
Investments in a subsidiary	–	–	–
Others			920,292
	P –	P –	P 1,147,168

Other income mainly represents the reversal of long outstanding accruals and payables.

Note 13 - INCOME TAXES

Current and deferred tax

On May 24, 2005, Republic Act (RA) No. 9337 changed the normal corporate income tax rate from 32% to 35% effective November 1, 2005 and from 35% to 30% effective January 1, 2009.

On December 20, 2008, Revenue Regulations No.16-2008 on the Optional Standard Deduction (OSD) was published. The regulation prescribed the rules for the OSD application by corporations in the computation of their final taxable income. For corporations, OSD shall be 40% based on gross income; “cost of goods sold” will be allowed to be deducted from gross sales.

For taxable period 2008, maximum 40% deduction shall only cover the period beginning July 6, 2008. However, July 1, 2008 shall be considered as the start of the period when the 40% OSD may be allowed.

On February 26, 2010, RR 2-2010 on the amendment of Section 6 and 7 of RR 16-2008 was published. The regulation amended the other implications of the OSD particularly on the election to claim either the OSD or the itemized deduction which must be signified in the first quarter and must be consistently applied for all the succeeding quarterly returns and in the final income tax return for the taxable year.

The Company did not avail of the OSD for purpose of income tax calculation in 2012 and 2011.

The composition of deferred tax assets is as follows:

	December 31, 2012	December 31, 2011
Impairment loss on advances to related parties	P 59,008,748	P 59,008,748
NOLCO	4,351,577	3,909,473
Impairment loss on AFS Securities	2,796,281	2,796,281
Unrealized foreign exchange loss	365,240	433,303
MCIT	68,950	50,541
Impairment loss on investment in subsidiary – note 6	—	1,296,000
	66,590,796	67,494,346
Valuation allowance	(66,590,796)	(67,494,346)
	P —	P —

Deferred tax assets and liabilities are determined using the income tax rates in the period the temporary differences are expected to be recovered or settled.

A corresponding full valuation allowance on deferred tax assets have been established since management believes, that it is more likely than not, that the carryforward benefits will not be realized in the future

As at June 30, 2013 and 2012, the composition of deferred tax liability on the unrealized foreign exchange gain on advances from/to related parties amounted to P30,432.

As at December 31, 2012, the Company has NOLCO and MCIT that can be claimed as deduction from future income tax payable and taxable income, respectively, as follows:

Year Incurred	Expiration Date	Beginning balance	Additions	Expired	Claimed	Ending balance
NOLCO						
2012	2015	P —	P 1,473,683	P —	P —	P 1,473,683
2011	2014	986,213	—	—	—	986,213
2010	2013	12,045,362	—	—	—	12,045,362
		P13,031,575	P 1,473,683	P —	P —	P 14,505,258
MCIT						
2012	2015	P —	P 18,409	P —	P —	P 18,409
2010	2013	50,541	—	—	—	50,541
		P 50,541	P 18,409	P —	P —	P 68,950

Note 14 - LOSS PER SHARE

The following table presents information necessary to calculate the earnings (loss) per share:

	As of June 30 2013	As of June 30 2012	December 31, 2012
Net loss for the period	(P 1,184,062)	(P 1,452,243)	(P 1,228,402)
Weighted average number of common shares outstanding during the year	1,840,394,404	1,840,394,404	1,840,394,404
	(P 0.00064)	(P 0.00079)	(P 0.00100)

Note 15 - FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company is exposed to a variety of financial risk which results from both its operating and financing activities. The Company's risk management is coordinated with the Group, in close cooperation with the Board of Directors, and focuses on actively securing the short-term cash flows by minimizing the exposure to financial markets.

The Company's principal financial instruments comprise of cash, advances to related parties, AFS financial assets, accounts payable and other liabilities (excluding local and other taxes and other liabilities to government agencies) and advances from related parties. The main purpose of these financial instruments is to raise financing for the Company's operations. The Company does not actively engage in trading of financial assets for speculative purposes nor does it have options.

The most significant financial risks to which the Company is exposed to are described below:

Credit risk

Credit risk arises from cash and advances to related parties.

The maximum credit risk exposure of the financial assets is the carrying amount of the financial assets shown on the face of statement of financial position, as summarized below:

	June 30, 2013	June 30, 2012
Cash in bank	P 196,127	P 38,213
Advances to related parties	303,831,907	307,064,970
	P 304,028,034	P 307,103,183

The credit quality of financial assets is discussed below:

Cash in bank

The Company deposits its cash balance in a universal bank to minimize credit risk exposure.

Advances to related parties

As at June 30, 2013 and 2012, the Company classifies the credit quality of advances to related parties based on the following:

	June 30, 2013	June 30, 2012
Group 1	P 167,457,772	P 171,671,952
Group 2	136,374,135	135,393,018
Group 3	—	—
	P 303,831,907	P 307,064,970

- Group 1 – Past due but not impaired with expectation of collection.
- Group 2 – Past due and impaired with expectation of collection.
- Group 3 – Past due and impaired without expectation of collection.

Group 1 and 2 mainly relates to the advances to related parties which are in difficult economic situation.

The details of the Company's aging analysis of financial assets as at June 30, 2013 and 2012 are as follows:

Past due but not impaired											
June 30, 2013	Total	Neither past due nor impaired	< 30 days	31-90 days	91-180 days	181-360 days	1-3 years	> 3 years but not impaired	Impaired		
Cash in bank	P 196,127	P 196,127	P-	P-	P-	P-	P-	P	-	P	-
Advances to related parties - note 10	500,527,735	-	-	-	-	-	-	-	328,896,660		171,631,075
	P 500,723,862	P 196,127	P-	P-	P-	P-	-	P 328,896,660		P 171,631,075	
June 30, 2012											
Cash in bank	P 38,213	P 38,213	P-	P-	P-	P-	P-	P	-	P	-
Advances to related parties - note 10	503,760,798	-	-	-	-	-	-	-	332,129,723		171,631,075
	P 503,799,011	P 38,213	P-	P-	P-	P-	-	P 332,129,723		P 171,631,075	

The management continues to review receivable from related parties for any legally enforceable right to offset with liabilities with the expressed intention of the borrower to settle on a net basis.

Liquidity risk

Liquidity risk refers to the risk that the Company will not be able to meet its financial obligations as they fall due.

The Company is mainly exposed to liquidity risk through its maturing liabilities. The Company has a policy of regularly monitoring its cash position to ensure that maturing liabilities will be adequately met.

The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The details of the maturity analysis of the Company's liabilities are as follows:

June 30, 2013	Total	On demand	Less than three months	3-12 months	1-5 years
Account payable and other liabilities	P 38,326	P -	P -	P 38,326	P -
Advances from related parties	3,416,398	-	-	-	3,416,398
	P 3,454,724	P -	P -	P 38,326	P 3,416,398
June 30, 2012					
Accounts payable and other liabilities	P 1,697,074	P -	P -	P 1,697,074	P -
Advances from related parties	3,643,770	-	-	-	3,643,770
	P 5,340,844	P -	P -	P 1,697,074	P 3,643,770

Interest rate risk and fair value interest rate risk

As the Company has no significant interest bearing assets, the Company's income and operating cash flows are substantially independent of changes in market interest rates.

The Company's interest rate risk arises from bank deposits. The Company's cash in bank earns interest at current interest rate level; any variation in the interest is expected to have an insignificant impact on Company's operation.

Foreign currency risk

The Company is exposed to foreign exchange risk arising from currency exposures primarily with respect to the U.S. Dollars and other foreign currencies. Foreign exchange risk arises when future commercial transactions and recognized assets and liabilities are denominated in a currency that is not the Company's functional currency. Significant fluctuation in the exchange rates could significantly affect the Company's financial position.

The Company is mainly exposed to credit risk through its advances from a related party.

The sensitivity rate used on reporting foreign currency risk internally to key management personnel is 10% and it represents management's assessment of reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary assets and liabilities and adjusts their translation at the period end for a 10% in foreign exchange rates. A positive number indicates an increase in net income when the Philippine Peso strengthens at 10% against the relevant currency. For 10% weakening of the Philippine Peso against the relevant currency, there would be an equal and opposite impact on the net income. If foreign exchange rates had been 10% higher/lower, the net loss before tax would decrease /increase by P364,261 and P364,377 in 2012 and 2011, respectively.

Capital Risk Objective and Management

The primary objective of the Company's capital management is to ensure its ability to continue as a going concern and that it maintains a strong credit rating and healthy capital ratios to support its business and maximize shareholder value.

The President has overall responsibility for monitoring of capital in proportion to risk. Profiles for capital ratios are set in the light of changes in the Company's external environment and the risks underlying the Company's business operations and industry.

The Company monitors capital on the basis of the debt-to-equity ratio which is calculated as total debt divided by total equity. Debt-to-equity ratios as of June 30, 2013 and 2012 are 0.88% and 1.42%, respectively. Total debt is equivalent to debt shown in the Company statements of financial position. Total equity comprises all components of equity as shown in the Company statements of financial position. Total equity amounts to P397,653,627 and P377,718,697 as of June 30, 2013 and 2012, respectively.

The Company monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including accrued and other payables and advances from related parties as shown in the Company statement of financial position) less cash. Total capital is calculated as Equity as shown in the Company statement of financial position plus Net Debt.

During 2012, the Company's strategy, which was unchanged from 2011, was to keep the gearing ratio below 50% as proportion to net debt to capital. The gearing ratios as at June 30, 2013 and 2012 were as follows:

	June 30, 2013	June 30, 2012
Accounts payable and other liabilities	P 38,326	P 1,697,074
Advances from related parties	3,416,398	3,643,770
Less: Cash	(196,127)	(38,213)
Net debt	3,258,597	5,302,631
Total equity	397,653,627	377,718,697
Total capital	P 400,912,224	P 383,021,328
	0.81%	1.38%

Comparison of Carrying Amounts and Fair Values

The carrying amounts and fair values of the categories of assets and liabilities presented in the statement of financial position are shown below:

	June 30, 2013		June 30, 2012	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Financial Assets				
Cash	P 196,127	P 196,127	P 38,213	P 38,213
Advances to related parties – net	303,831,907	303,831,907	307,064,970	307,064,970
AFS financial assets	96,518,397	96,518,397	75,586,436	75,586,436
	P 400,546,431	P 400,546,431	P 382,689,619	P 382,689,619
Financial liabilities				
Accounts payable and other liabilities	P 38,326	P 38,326	P 1,697,074	P 1,697,074
Advances from related parties	3,416,398	3,416,398	3,643,770	3,643,770
	P 3,454,724	P 3,454,724	P 5,340,844	P 5,340,844

Fair value estimation

The methods and assumptions used by the Company's in estimating the fair value of the financial instruments are as follows:

Financial assets

Cash and trade and other receivables - The carrying amounts of cash and trade and other receivables approximate fair values due to relatively short-term maturities.

Advances to affiliates - The fair value of advances to affiliates is not reasonably determined due to the unpredictable timing of future cash flows.

The carrying value of AFS financial assets approximates their fair value as they are valued at market to market based on published quoted price.

Financial liabilities

Accounts payable and other liabilities - The carrying amounts of accounts payable and other liabilities approximate fair values due to relatively short-term maturities.

Advances from related parties - The fair value of advances from related parties is not reasonably determined due to the unpredictable timing of future cash flows.

Fair value hierarchy

The Company analyses financial assets carried at fair value, by valuation method.

The fair values of financial assets based on fair value hierarchy are as follows:

June 30, 2013				
	Total	Level 1	Level 2	Level 3
AFS financial assets	P 96,518,397	P 32,627,759	P 63,890,638	P –

June 30, 2012				
	Total	Level 1	Level 2	Level 3
AFS financial assets	P 75,586,435	P 11,695,797	P 63,890,638	P –

Note 16 - SUPPLEMENTARY INFORMATION REQUIRED BY RR-15-2010 AND RR19-2011

Supplementary information required by Revenue Regulations 15-2010

On December 28, 2010, Revenue Regulation (RR) No. 15-2010 became effective and amended certain provisions of RR No. 21-2002 prescribing the manner of compliance with any documentary and/or procedural requirements in connection with the preparation and submission of financial statements and income tax returns. Section 2 of RR No. 21-2002 was further amended to include in the Notes to Financial Statements information on taxes, duties and license fees paid or accrued during the year in addition to what is mandated by Philippine Financial Reporting Standards.

a) Output value-added tax

The Company has no output VAT since it does not have any income subject to VAT for the quarter ended June 30, 2013 and 2012.

b) Input value-added tax

	June 30, 2013	June 30, 2012
At beginning of year	P 394,608	P 64,563
Current purchases and payments for:		
Goods for resale/ manufacture	–	–
Goods other than for resale or manufacture	–	–
Capital goods subject to amortization	–	–
Capital goods not subject to amortization	–	–
Services lodged under cost of goods sold	141,676	263,501
Services lodged under other accounts	–	–
	P 536,284	P 328,064

c) *Taxes on importation*

The Company has no import transactions for the quarter ended June 30, 2013 and 2012.

d) *Excise Tax*

The Company does not have excise tax in any of the taxable years presented since it does not have any transactions which are subject to excise tax.

e) *Documentary stamp tax*

The Company does not have any documentary stamp tax paid for the quarters ended June 30, 2013 and 2012.

f) *Taxes and licenses*

Details of taxes and licenses account are broken down as follows:

	June 30, 2013	June 30, 2012
	P	P
Business permits	–	–
SEC filing fee	5,050	5,050
Corporate Community tax	–	–
BIR Annual registration	–	–
DOE bidding fee	–	300,000
	P 5,050	P 305,050

g) *Withholding taxes*

The details of total withholding taxes for the quarter ended June 30, 2013 and 2012, are shown below:

	June 30, 2013	June 30, 2012
	P	P
Withholding tax on compensation	–	–
Expanded withholding tax	25,576	16,875
Final withholding tax	–	–
	P 25,576	P 16,875

h) *Deficiency tax assessment and tax cases*

The Company does not have any deficiency tax assessments with the BIR or tax cases outstanding or pending in courts or bodies outside of the BIR in any of the taxable years.

Supplementary information required by Revenue Regulation 19-2011

RR No. 19-2011 prescribes the new BIR forms that should be used for income tax filing covering and starting with the calendar year 2011 and modifies Revenue Memorandum Circular No. 57-2011. In the Guidelines and Instructions Section of the new BIR Form 1702 (version November 2011), a required attachment to the income tax returns is an Account Information Form and/or Financial Statements that include in the Notes to Financial Statements schedules of sales/receipts/fees, cost of sales/services, non-operating and taxable other income, itemized deductions (if the taxpayer did not avail of the Optional Standard Deduction or OSD), taxes and licenses and other information prescribed to be disclosed in the Notes to the Financial statements.

The schedule and information of taxable income and deductions taken for the quarter ended June 30, 2013 and 2012 are as follows:

a) *Sales/Taxable Income*

	June 30, 2013		June 30, 2012	
	Special rate	Regular rate	Special rate	Regular rate
Sale of goods	P —	P —	P —	P —
Sale of services	—	—	—	—
Sale of properties	—	—	—	—
	P —	P —	P —	P —

b) Other non-operating and taxable income

The Company has no other taxable income for the quarter ended June 30, 2013.

c) Itemized deductions

	June 30, 2013		June 30, 2012	
	Special rate	Regular rate	Special rate	Regular rate
Professional fees	P —	P 271,784	P —	P 324,400
Office supplies	—	—	—	8,103
Rent and utilities	—	55,500	—	55,500
Communication, courier & postage	—	42,715	—	—
Printing & reproduction	—	215,626	—	223,741
Taxes and licenses	—	5,050	—	305,050
Representation	—	21,250	—	412
Training and development	—	3,000	—	10,000
Travel and transportation	—	400	—	223
Miscellaneous	—	16,449	—	963
Sub-total	—	631,774	—	928,392
Allowance of NOLCO	—	—	—	—
Total expenses	P —	P 631,774	P —	P 523,851

d) Taxes and licenses

The details of the Company's taxes and licenses are presented in section I.F of this note.

e) Other information

All other information prescribed to be disclosed by the BIR has been included in this note.
